*Depth does not include 1-5/8" (42 mm) for door handles.

TrueGo is the future of self-contained unattended retail. Sell any products anywhere anytime. No cashiers. No lines. Unlimited sales. Simply swipe, take what you want, and close the door. TrueGO allows the consumer to experience touching and reading product information before the purchase.

7" Built-in Android Tablet
IPS Android Tablet PC for an interactive consumer transaction.

Windows NFC Card Reader
Facilitates secure, contactless purchases.

***Comprehensive payment systems sold separately**

5 Shelves
TrueGO comes standard with 5 shelves, with 4 weighted scales per shelf, which allows up to 20 different SKU's per unit.

Weighted Scales
Each scale can hold up to 35lbs., allowing for very few product restrictions.

Health Lock
Integrated Health Lock will automatically lock the unit if the internal temperature stays above 41° for 30 minutes.

Custom Graphics**
With custom sign, side and front panel graphics, TGO can be transformed to fit any look or theme.

- Software**
- Simple to use ShelfX software allows for purchase tracking, inventory management, and the ability to track changes. Sales summary reports make it easy to manage your new unattended retail business.
 - Product flexibility and pricing are easily adjustable and can accommodate any request, such as combo deals or special privileges for employees, encouraging multi-product transactions.
 - The TrueGo set up process is easily customizable and can be done from anywhere, including your laptop, iPad, iPhone or Android device.

* Supports many different payment systems/card readers.

** Custom graphics shown are not standard.
