BAR REFRIGERATION  
TBR | TDR SERIES  
48 | 52 | 60 | 72

True's NEW extensive line of refrigerated bar equipment offers a diverse selection of products and sizes. With rugged construction, attractive appearance and oversized refrigeration systems, True's bar equipment is designed to meet and exceed the performance and reliability demands of bars and nightclubs. Models feature stainless steel tops with heavy duty, black powder-coated, cold rolled steel (CRS); stainless exteriors are also available.

**RCU | Reverse Condenser Fan Motor**

Reverse Condensing Technology allows for the reversing of the condensing fan motor, helping to keep the condensing coil clean and reduce the negative effects of a dirty coil.

Front Air Intake/  
Front Air Discharge

Electronic Control

**Climate-Friendly, Cost Effective**

Hydrocarbon (HC) refrigerants are natural, nontoxic refrigerants that have no ozone depleting properties and low global warming potential. Hydrocarbons are one of the most climate-friendly and cost-effective refrigerants to cool and freeze.
