

TDR TAPPING OPTIONS

TRUE REFRIGERATION
RAISING THE BAR

Tap into increased traffic, sales and profit with tapping kits from True.

True offers tapping kits specifically engineered for our TDR bar refrigeration units, allowing foodservice operators to easily and economically offer a wide variety of beverages to their patrons.

From trendy wines, craft beers and cold brew coffee to healthy drinks like kombucha, customers are thirsty for more options and greater variety when it comes to draft beverage consumption. With tapping systems from True, your business can stay on top of industry trends while maximizing profit by increasing traffic, sales and efficiency, and reducing waste.

Take advantage of True's innovative engineering and quality construction to expand your draft beverage offerings, diversify your clientele, and grow your business today.

BEER TAPPING KITS

Tapping kits for True’s TDR coolers make it simple and economical for your business to offer seasonal and locally-produced craft beers from smaller brewers, alongside beers from major, mainstream brands. Give your customers the quality and variety they want and increase traffic, sales and profit with beer tapping kits from True.

BEER SINGLE ROUND KIT
#980017

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	1
PVC Liquid Line	1
Chrome Tap Handle	1
Mounting Gasket	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4

BEER DOUBLE ROUND KIT
#980019

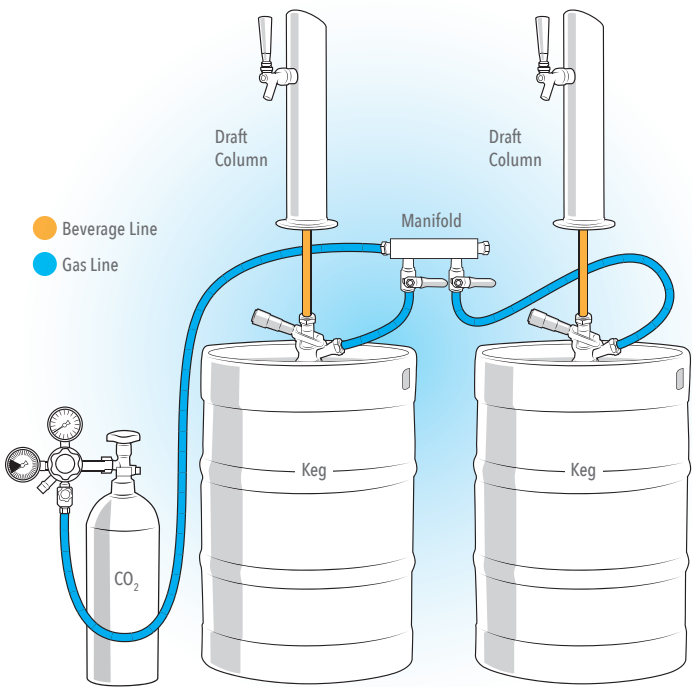

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	2
PVC Liquid Line	2
Chrome Tap Handle	2
Mounting Gasket	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4

BEER TRIPLE ROUND KIT
#806928

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	3
PVC Liquid Line w/Flex Fittings	3
Chrome Tap Handle	3
Mounting Gasket	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4
Washers	3

CONNECTIONS FOR TWO SINGLE BEER TAPS

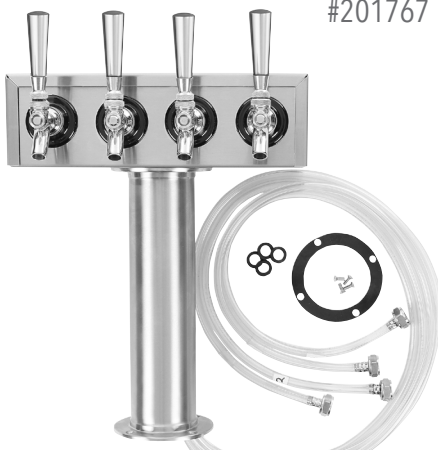

NOTE: One single tap does not require a manifold.
Not included with cabinet: CO₂ tank, CO₂ hose, pressure regulator, and tap kit.

BEER T-STYLE TRIPLE KIT
#873105

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	3
PVC Liquid Line w/Flex Fittings	3
Chrome Tap Handle	3
Mounting Gasket	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4
Washers	3

BEER T-STYLE QUAD KIT
#201767

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	4
PVC Liquid Line w/Flex Fittings	4
Chrome Tap Handle	4
Mounting Gasket	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4
Washers	4

True’s beer tapping kits are also perfect for kombucha.

Get in on the kombucha craze by offering your customers this healthy, tasty drink straight from the tap.

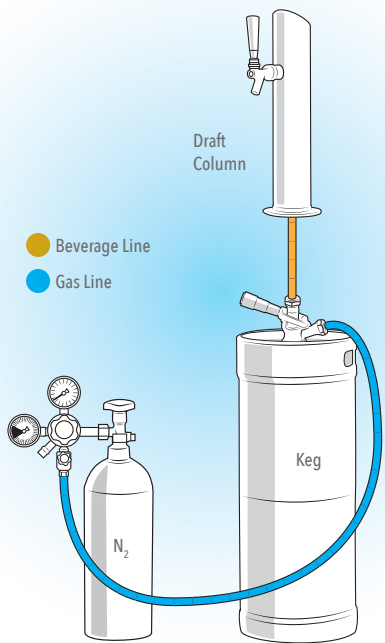

WINE TAPPING KITS

With no corks to pull, product lost to spoilage or bottles to recycle, your wine service becomes much more efficient – and profitable – with wine tapping kits for your True TDR cooler. Wine tapping kits from True are engineered to stop the loss of CO₂ from wine and substantially limit oxygen penetration, preserving quality and leading to a better-tasting product.

Wine tapping kits from True can also serve hard cider.

Expand your options by offering this trending beverage on tap.

CONNECTIONS FOR ONE SINGLE WINE TAP

Not included with cabinet: Nitrogen tank, gas hose, pressure regulator, and tap kit.

WINE SINGLE ROUND KIT #803638

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	1
Poly Liquid Line w/Flex Fittings	1
Chrome Tap Handle	1
Mounting Gasket	1
Hose Washer	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4

WINE DOUBLE ROUND KIT #803639

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	2
Poly Liquid Line w/Flex Fittings	2
Chrome Tap Handle	2
Mounting Gasket	1
Hose Washer	2
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4

WINE ON TAP FAQ

Q. Is wine on tap lower quality than bottled wine?

A. Not at all. As demand grows, wineries are making more of their premium wines available in kegs. Packaging wine in kegs makes it easier to maintain high quality standards, avoiding oxidization by shielding the wine from exposure to air until it is served. Kegs are also less susceptible to temperature variation, which can negatively affect the quality of wine.

Q. Is it economical?

A. Very. Wine by the keg is less expensive for wineries to produce than bottled wine, allowing them to pass the savings on to their foodservice customers. It also allows restaurants and bars to serve wine by the glass without the inevitable waste that occurs with open bottles. Typically, the cost of the system can be recovered within a year, when the loss of product associated with bottled wine is eliminated.

Q. Is it environmentally-friendly?

A. Absolutely. Each keg holds the equivalent of 26 bottles of wine. Removing those 26 bottles from circulation also eliminates around 39 pounds of packaging waste from boxes, bottles, foil wraps, corks and labels. A steel keg has a lifespan of 30 years, and in that time will have replaced one ton of glass bottles. And, the use of one steel keg eliminates as much CO₂ from the environment as 28 trees do.

COFFEE TAPPING KITS

Cold brew is one of the fastest-growing segments of the multi-billion dollar retail coffee market. Traditional cold brew is smooth and flavorful, but infusing it with nitrogen takes it to a whole new level. True's coffee tap kits allow you to take advantage of cold brew's popularity to increase sales by offering both flat cold brew coffee and nitro-infused cold brew to your customers.

COLD BREW SINGLE ROUND KIT
#222754

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	1
Poly Liquid Line w/Ball Lock Quick Disconnect	1
Gas Line w/Ball Lock Quick Disconnect	1
Chrome Tap Handle	1
Mounting Gasket	1
Two-Gauge Oxygen Regulator	1
10-32 x 1/2" Screws	4
8-32 x 1/2" Screws	4

COLD BREW DOUBLE ROUND KIT
#803677

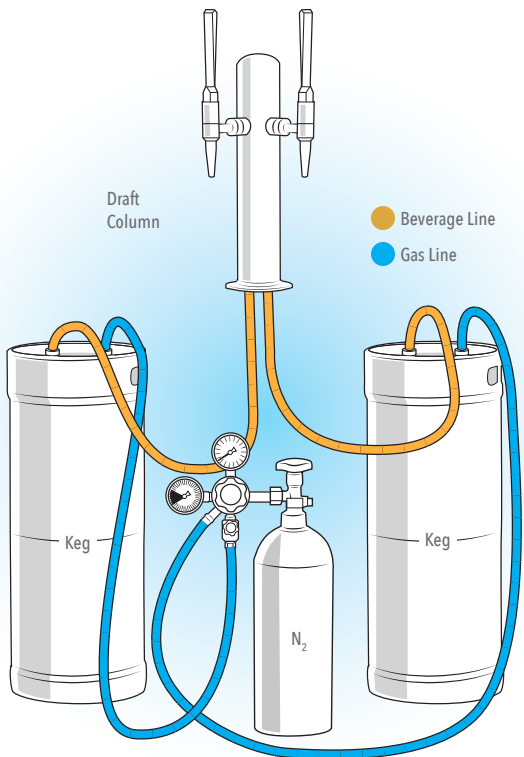

Component	Qty
304 Stainless Steel Draft Tower	1
304 Stainless Steel Faucet	2
Poly Liquid Line w/Ball Lock Quick Disconnect	2
Gas Line w/Ball Lock Quick Disconnect	2
Chrome Tap Handle	2
